DPD-0755-61
7 February 1961

Dear Dick:

Once again we are in the process of preparing the Project and FOC Fiscal Year 1962 Budget for the period 1 July 1961 through 30 June 1962.

I have set forth below a description of the anticipated procurements with your company in support of Project and FOC activities. Also, a few guidelines are given as a basis for the procurements. Giving due consideration to these factors, Contractor is requested to submit budgetary estimates on the following:

a. Contractor Technical Representatives.

(1) Project. Furnish personnel to support operations as follows:

(a) At one (1) overseas site for a period of one (1) year to support one vehicle on a stand-by basis.

(b) At one (1) overseas site for a period of one (1) year to support two vehicles for full time operations.

(c) At one (1) domestic site for a period of one (1) year with the assumption that stagings will require the services at overseas locations 75% of the time.

The estimate should be in sufficient detail to reflect the quantity of personnel, the cost involved by a man-month rate and travel and per diem costs. Contract arrangements to be as they presently exist under Contracts Nos. SC-59 and SC-61.

(2) FOC. Furnish personnel to support full time operations at one (1) ZI base for a period of one (1) year. The possibility of an overseas deployment exists; however, there should be no additional personnel programmed for this. Estimate should be prepared as above except it should include man-month rates for domestic and overseas services. Contract arrangements to be as they presently exist under Contract No. SC-58.

b. Repair, Overhaul and Flight Testing of Equipment.

(1) Project and FOC. Furnish necessary facilities, materials and services to repair, overhaul, modify and test Project and FOC equipment as it may be returned to the factory from time to time. Since the Depots for Project and FOC equipments were combined 1 January 1961, the Contractor is no longer required to segregate materials and costs

by Customer except for designated work, i.e., IRAN, TWI, EOP's, etc. However, in order that the contract may be equitably funded, Contractor is requested to submit a budgetary estimate which reflects its best estimate of the total costs for the year for each Customer and an estimate for the common fund. The common fund should indicate what percentage was used to determine the Project and FOG participation. This estimate should be coordinated with the Depot prior to submission. Contract arrangements will be as they presently exist under Contract No. SP-1916.

c. Spare Parts, Test Equipment, Modification Kits, Etc.

(1) Project and FOG. Furnish such supplies, equipments, components and/or kits as called for by the Depot. Again, as in the case of repair and overhaul, the Contractor is no longer required to segregate by Customer, except for designated items. The Calls issued by the Depot will reflect the applicable Customer or common funding. Accordingly, the Contractor's budgetary estimate should be prepared on the same basis as b., above, and applicable percentages indicated. Contract arrangements will be as they presently exist under Contract No. SP-1917. The estimate should be coordinated with the Depot prior to submission.

Receipt of the information requested above would be appreciated by 28 February 1961. Original and five copies are requested. If there are any questions please do not hesitate to call us.

Sincerely,

SIGNED

Wendall
